SUMMARY

Electronics and Computer Science student (CGPA 8.81) with hands-on data analytics and product analytics experience: SQL querying, data cleaning, exploratory analysis, and Power BI dashboards. Strong statistics and machine learning foundation from self-study of the GATE Data Science and AI syllabus. Completed a Data Analytics internship evaluating user satisfaction and a Full Stack internship working with APIs and MySQL. Seeking an Associate Product Analyst, Data Analyst, or Business Analyst role.

SKILLS

Analytics and BI: SQL, Python, Power BI, Microsoft Excel, Data Cleaning, Exploratory Data Analysis, Dashboarding, Reporting

Python Libraries (working knowledge): pandas, NumPy, scikit-learn, Matplotlib

Statistics and ML (self-study): Probability, Hypothesis Testing (z-test, t-test, chi-squared), Confidence Intervals, Correlation, Linear and Logistic Regression, Classification, Clustering, PCA, Cross-Validation

Databases: MySQL, PostgreSQL, MongoDB

Tools and Web: REST APIs, Postman, n8n, Gmail API, Google Sheets API, Git, GitHub, Angular, Flask, HTML, CSS

EXPERIENCE

Data Analytics Intern | Hello Uniglobal Pvt. Ltd. 15 May 2026 - 15 Jun 2026

- Collected and validated user feedback from application users.
- Compared pre- and post-usage survey responses to evaluate user satisfaction.
- Prepared analytical reports with actionable recommendations.

Full Stack Developer Intern | Kantascrypt Pvt. Ltd. 12 May 2026 - 12 Jun 2026

- Developed backend APIs using Python.
- Built Angular frontend modules and integrated REST APIs.
- Managed a MySQL database and implemented business logic.

PROJECTS

Employee Attrition Analysis | Excel, Python, MySQL, Power BI

- Analyzed employee attrition data to identify workforce turnover patterns.
- Performed data cleaning, SQL querying, and exploratory data analysis.
- Built interactive Power BI dashboards showing attrition trends and employee insights.

Intelligent Gmail Automation System | n8n, Gmail API, Google Sheets API

- Automated email processing and tracking workflows.
- Integrated Gmail API with Google Sheets for automated record management.

CRM Management System | Angular, Python, MySQL, REST API

- Developed secure authentication and role-based login.
- Built customer, company, and follow-up management modules.
- Integrated REST APIs between the Angular frontend and Python backend.
- Managed version control using Git and GitHub.

EDUCATION

St. John College of Engineering and Management June 2023 - August 2027 (Expected)
B.E., Electronics and Computer Science | CGPA: 8.81

CERTIFICATIONS

AI Skills Passport - EY + Microsoft Feb 2026

Database and SQL - Infosys Springboard Sep 2025

Software Engineering - Infosys Springboard Sep 2025

Jetking Certified Cisco Associate - Jetking, Vasai Road Dec 2024

SOFT SKILLS AND LANGUAGES

Problem Solving, Analytical Thinking, Teamwork, Communication, Leadership, Fast Learner
Languages: English (Professional), Hindi (Native), Marathi / Japanese / German (Basic)
